

A close-up photograph of a violin and its bow resting on a dark, cracked marble surface. The violin is positioned on the right side of the frame, with its body and f-hole clearly visible. The bow is held diagonally across the violin. The background is a dark, textured surface with prominent, light-colored veins, characteristic of marble or granite. The lighting is dramatic, highlighting the smooth curves of the violin and the texture of the stone.

FRENCH REFINEMENT FOR CONNOISSEURS OF AESTHETICS

The inspiration for each Avant Quartz collection came from a trip to cosy places in France. Working with the quartz surfaces decor, our designers convey the unique atmosphere of local architecture and the ability of French artisans to make even the most ordinary things noble. For this reason, Avant Quartz fits a classic setting and a modern interior. It invariably becomes the touch that emphasises the excellent taste of the house owner.

Avant Quartz is in no way inferior to natural stone and has yet another advantage – it offers you the best value for your money. Apart from that, the features of quartz surfaces make each item unique, and the quality of the material itself meets high global standards.

ADVANTAGES

Avant Quartz combines stylish design and ease of use and has many advantages, including high scratch and stain resistance. The smoothness of the material ensures ease of care and hygiene: the absence of cavities prevents the accumulation and development of bacteria. In the event of contamination, it is sufficient to wash the surface for the pattern to reappear in all its glory. With good care, the product made of quartz surfaces lasts for decades.

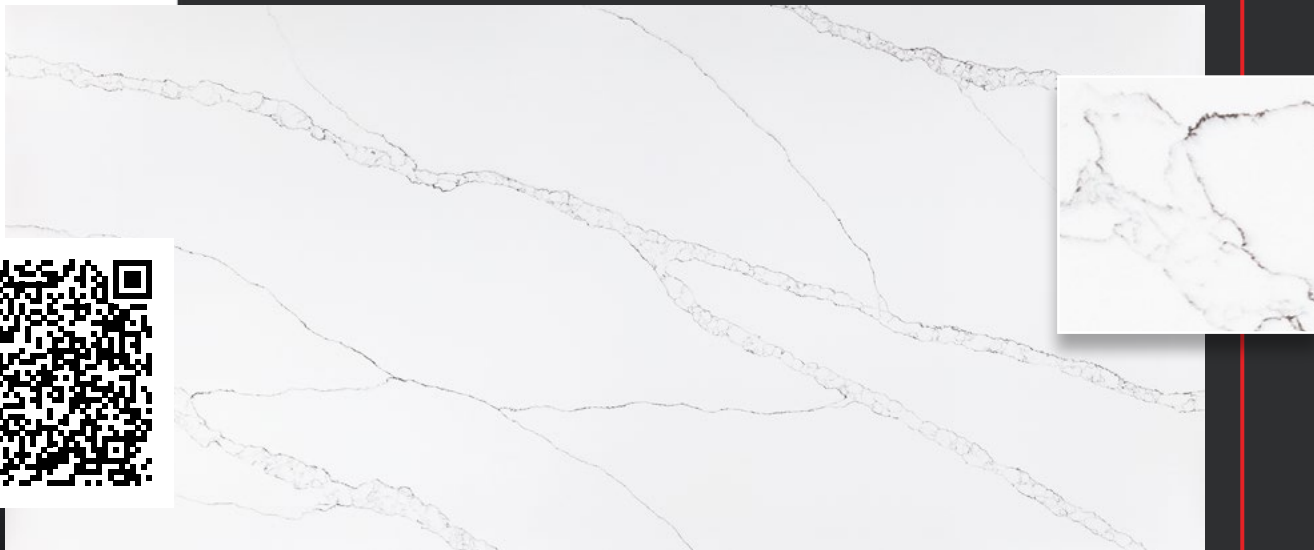

LIMITLESS DESIGN POSSIBILITIES

Avant Quartz is manufactured in standard format with dimensions of 3050 mm x 1440mm as well as Jumbo format with dimensions of 3200 mm x 1600 mm. The slabs can be 12 mm, 20 mm, and 30 mm thick.

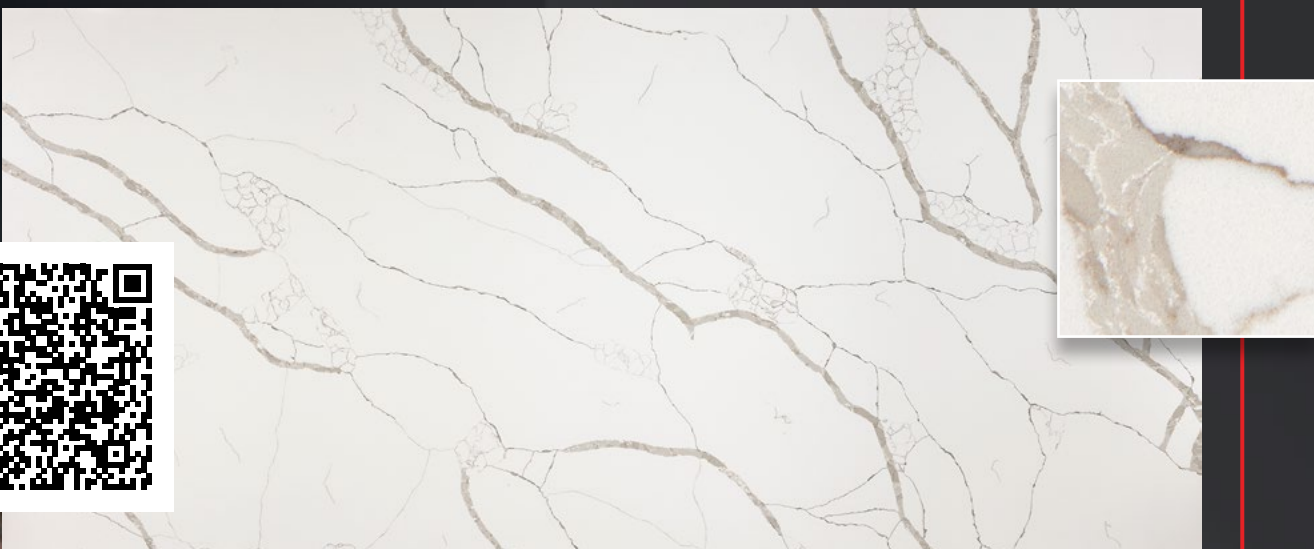

The material is often used for decorating bathrooms, kitchen and bar countertops, washbasins, and flooring.

Avant Quartz is certified for the manufacture of countertops and internal cladding. The material is safe for use in kitchens and areas with high hygiene and sanitary requirements.

INTERACTIVE CATALOGUE

Avant Quartz

To help the customer choose the shade, you can demonstrate how the stone decor looks in the interior. Scan the QR code next to the stove's picture and a photo of the interior will be displayed on your smartphone.

THE PAGES COME TO LIFE

It is better to see something once than to hear about it a thousand times!

To demonstrate the stone in the interior:

1. Open the app or website to read the QR code;
2. Point the camera at the QR code and wait while the app reads the code;
3. Click on the link in the window that appears on your smartphone screen if the image does not appear automatically.

HELP WITH SELLING

Now you do not have to look for stone photos to demonstrate the decor. You will find pictures of the stone in the catalogue next to the slab decor you want.

Use the new catalogue as a ready-made sales tool. An interactive catalogue helps you make the right decision when choosing a stone decor.

Avant Quartz is suitable for you if:

1

You are looking for a surface that does not require professional maintenance.

Avant Quartz is a moisture-resistant, non-porous material that does not need to be treated with chemical solutions. The surface can be wiped with a damp cloth or a non-abrasive cleaning detergent.

2

You need a hygienic surface for family care.

The stone's surface is polished. There are no pores or micro-cracks and, therefore, no environment for developing pathogenic bacteria and mould. Therefore, quartz surfaces are considered a hygienic material. They are used in kitchens as well as in medical facilities.

3

You are following fashion trends.

Stone and wood are essential parts of a fashionable interior. Avant Quartz decors combine all the global trends of the contemporary design world.
